ACRYLIC KITCHENS .

ACRYLIC fronts are very rigid and resistant to all scratches. In addition, they are an ecological product, containing silver ions that have antibacterial activity. The AKRYL program is a kitchen extremely effective, emphasizing the style and character of the interior. In addition, we can highlight and give your kitchen an individual look by choosing optional handles from our offer.

VARNISHED KITCHENS
(GLOSS AND MAT)

The Laminated program is modernity at its best. MDF front covered with foil High gloss PVC. The huge selection of colors of the fronts of this program will satisfy you most demanding customer. It is a program for people who are open and not afraid of challenges.

LAMINATED KITCHENS

The LAMINATED LINE is universal and can fill both classic and modern interiors. The MDF front is covered with PVC foil in a matt structure of the highest quality. The delicate front cutter makes your kitchen a unique place.
